

How to join us

If you've just registered with us at our booth, your name and details will be automatically added to our database. Otherwise, go to our club website and join from there:

<http://sme.skule.ca/>

This will add you to our mailing list and keep you informed about upcoming events.

Remember to tell your friends and colleagues about UTSME!

We'd like to thank:

UofT Engineering Society (EngSoc)

UofT Students' Union (UTSU)

university of toronto
mechanical & industrial engineering

UofT MIE Dept.

And other corporate sponsors

For more information, visit <http://sme.skule.ca/>
for details about upcoming events and our
bimonthly newsletter publication

2007-08

Who are we?

We are the University of Toronto office for the Society of Manufacturing Engineers. We aim to introduce the manufacturing industry to students, provide resources and opportunities for students to obtain jobs in the manufacturing industry and at the same time connect students and professionals of similar interests. We do so by offering plant tours in various disciplines, seminars on hot manufacturing topics, professional workshops and roundtable discussions, as well as social and networking events like wine and cheese.

Why should students join us?

If you are a student interested in a career in manufacturing or one of its many related industries, joining SME should be first on your "to-do" list. We are a one-stop shop for busy students, offering everything from hard-to-find technical information on state-of-the-art manufacturing processes and applications to providing you with unparalleled networking opportunities to help you land that first job in your career path.

SME (Main Chapter) History

For 75 years, the Society of Manufacturing Engineers (SME) has been the place *Where Manufacturing Comes Together*. Founded in 1932 with 33 members, the organization was originally named the Society of Tool Engineers. A year later, it was renamed the American Society of Tool Engineers. It finally became the Society of Manufacturing Engineers in 1969. Formed amid the Great Depression by a

group of tool engineers and master mechanics, the organization looked to collaborate on how to build what would give the Motor City its name—the automobile.

Today, SME is the world's leading professional society supporting manufacturing education. Through its member programs, publications, expositions and professional development resources, SME promotes an increased awareness of manufacturing engineering and helps keep manufacturing professionals up to date on leading trends and technologies. The Society has members in more than 70 countries and is supported by a network of hundreds of technical communities and chapters worldwide. SME's members hail from diverse manufacturing industries including aerospace, defense, automotive, transportation, medical, and many more.

Past events 2006-07

- Bombardier Plant Tour
- Toyota Plant Tour
- George Brown manufacturing facility tour

Events planned for 2007-08*

Fundraising BBQ	Tues., 11th Sept, in front of MIE
Welcoming Event Wine and Cheese/Pizza and Pop followed by a Seminar#1	Tues., 25 th Sept, 6:00-8:30 pm, location TBA
Bombardier Plant Tour (Downsview, ON.)	Thurs., 27th, 4:30pm
Design/Case competition	Fri., 9th Nov, 3:00-7:00pm
Career Workshop/Roundtable	Thurs., 22nd Nov, 6:00-8:00 pm
Unigistix Plant Tour	Thurs., 17th Jan, 2:30-5:00 pm
Social/Networking event	Thurs., 3rd Feb, 6:00-8:00 pm
