

Nonprofit Governance

Tuesday November 20, 6:00pm-8:00pm
City Hall, Committee Room 3

What does governance really mean? Is governance more than about the role of a board of directors? Who are you accountable to in the work that you are doing? Join us in a discussion with 3 groups using different models of work to explore the way that governance plays out in their work, and in yours.

This workshop is part of a larger workshop series being organized by a working group made up of youth organizations and funders. A certificate will be provided to participants who attend 5 or more workshops in the series. For more information, contact info@artreachtoronto.ca
