

Electricity, heating, fuel:
Under the umbrella of RWE Power AG – a subsidiary of RWE AG, Essen – some 17,000 people work in power plants, opencast mines and factories for Europe's energy supply. RWE Power provides 30% of Germany's and 9% of Europe's electricity. To do this, the Company backs a broad mix of lignite, hard coal, nuclear energy, natural gas as well as hydropower and other renewable energy sources.

We are seeking for RWE Power AG's Essen location as per the next possible date a:

■ **CDM Monitoring/Verification Manager (m/w)**

Your tasks:

- Quality checks, monitoring and verification of CDM projects
- Heading our staff at RWE's Beijing office in charge of quality checks, monitoring and verification of CDM projects in China
- Quality checks of project-design documents
- Support and control of project owners in the implementation of monitoring systems
- Commissioning and coordination of verifiers
- Performance evaluation using project-specific production data and, possibly, launch of online systems
- Continuous risk assessment of projects and estimates of the quantities to be expected
- Support in the further development of existing models (risk and portfolio management)
- Reporting to the chief portfolio manager

What we expect:

- Successfully completed university studies in the field of business engineering, mechanical engineering, electrical engineering, or mathematics and physics
- Experience in the validation and verification of CDM projects
- Experience in the management of international projects inside and outside Germany, and in leadership
- Ideally, several years' professional experience in an appropriate field of work
- Very good spoken and written English and German; Chinese language skills are an advantage
- Confident handling of MS Office products (specifically Excel)
- Good organizational, communication and negotiation skills
- Team capability, a will to succeed and assertiveness
- Willingness to stay abroad for longer periods

What we offer:

A performance-gearred salary, the attractive social benefits of a modern company, and an agreeable work environment. Our corporate culture encompasses team- and target-oriented work within the scope of flexible working hours as well as continuous technical and personal upskilling.

Applications from the disabled are welcome.

If there are any questions don't hesitate to ring Volker Schmidt directly under +49 201 12-22886.

Interested? Please send us your application, preferably online.

We look forward to your application!
