

Ecofys is a leading international consultancy operating in the fields of renewable energy, energy efficiency and climate change. Ecofys offers a wide range of high quality services, based on our extensive knowledge of renewable energy and energy saving solutions. Areas of expertise include solar energy, wind energy, biomass, and energy supply, energy in the built environment, and energy and climate policies. Our experts are organised around the different markets/client groups and the fields of research, consultancy and product development. Technical, economical and planning disciplines are combined to develop balanced and cost-effective solutions to clients' problems.

Econcern is the holding company of Ecofys, Evelop, Ecostream and Ecoventures. The mission of these companies is "a sustainable energy supply for everyone". Econcern delivers unique projects and innovative products and services towards this mission. The Econcern group employs over 700 professionals in Canada, China, France, Germany, Italy, the Netherlands, Poland, Spain, Switzerland, Turkey and the UK.

## Senior Consultant (m/f) Clean Development Mechanism (CDM)
