

## COMMERCIAL GRADUATES

The tougher the challenge, the better it feels when you finally overcome it. Most people wouldn't have thought it was possible to run a gas rig on less power than it takes to boil a kettle. But that didn't stop us from finding a way. If you get a kick out of being challenged, talk to us. Right now we're looking for ambitious graduates who can help us meet the energy challenge – especially in the following Corporate Support Functions:

**Finance • Information Technology • External Affairs • HR**

We'll provide training, support and career choices to help you develop your potential. And we'll get you working with some of our most accomplished problem solvers. Together we can help build a responsible energy future.

### WHAT WE ARE LOOKING FOR:

A good academic record with at least a 2.1 or 2.2 degree plus a Masters, ideally in Information Technology, Social Sciences, Accounting/Finance or related disciplines. You must have excellent numeracy, analytical and problem-solving skills, and be capable of delivering results and working effectively with others. A good command of written and spoken English is a must. You should have no more than three years post-NYSC work experience.

### HOW TO APPLY:

Go to [www.shell.com/careers](http://www.shell.com/careers)

- Click on "Students and Graduates", then "How do I apply for a career with Shell?"
- Click on "3 ways to get a career with Shell".
- Click on the "Apply now" button under "Option A: Shell Recruitment Day".
- Register, complete the "Data Protection" section and enter your personal details. You'll need to confirm your e-mail address.
- Look out for our confirmation e-mail entitled "Your Shell Account Information" in your inbox.
- After confirmation, log on to your account and submit your application.
- In the "Opportunities and Eligibility" section, select "Employment".

The closing date for applications is May 31, 2009.

*Shell is an Equal Opportunity Employer.*
