

COP-15 • December 2009

Donate Your Airline Miles Give an Activist a place at the table

Activists from developing countries will not have the opportunity to attend the International Climate Negotiations in Copenhagen this December because they lack resources. Voices from Africa, Latin America, Pacific Islands and Southeast Asia, in particular, have not been heard in the halls of the UN loudly enough. Ironically, those are some of the regions that are being affected by climate change the most.

That's where you come in. We need you to pledge your airline miles to send climate activists to Copenhagen!
